

## Parramatta Light Rail is the new way to go with 16 stops, and frequent services between 5am and 1am connecting Carlingford and Westmead via Parramatta CBD

Modern, comfortable, air conditioned vehicles include dedicated spaces for wheelchairs and storage racks for bikes. Plus, with the capacity to carry up to 400 passengers, there's plenty of room for all.

## Parramatta Light Rail is the new way to go

### Getting to university

With three stops servicing Western Sydney University, the light rail offers a new level of convenience.

### Catching the action at CommBank Stadium

If you're heading to the game, it's a short walk from Prince Alfred Square.

### Travelling to Rosehill Gardens

When you're planning a day out, the light rail is a simple way to get there.

### Dining out at night

Light rail services run until 1am, great for late night dining in the Parramatta CBD.

### Shopping made simple

Leave the car at home and take the new light rail to the shops.

### Visiting Westmead Health Precinct

Three stops in the Westmead Health Precinct make getting where you need to easier.

## Connecting to the new Parramatta Light Rail

### Train

Connect to the light rail with just a short walk from Parramatta and Westmead train stations.

### Bus

Local bus services connect to light rail stops or within close walking distance.

### Ferry

Connect to the light rail with a short walk from Parramatta Wharf.

### Walking and bike riding

New walking and bike riding paths, as well as signalised crossings, make accessing the light rail easy.

You can ride your bike to the light rail with many stops providing bike hoops for storage, and with four bike racks available on each light rail vehicle, you can take your bike with you.

## The new way to go Parramatta Light Rail

## Safety, access and comfort

- Parramatta Light Rail stops offer safe, well-lit waiting areas and have hearing loops, maps and electronic information displays indicating when the next service will arrive.
- Parramatta Light Rail stops have been designed with ramp access and wheelchair waiting areas on platforms.
- Each light rail carriage has platform level floors and double doors.
- There are two wheelchair spaces and four bike racks on each light rail vehicle.
- Help points and passenger information are on board to support you throughout your journey.
- Light rail doors open automatically. You do not need to push the button when getting on or off.

# Be safe on and around the light rail

## Passengers

- With frequent services between 5am and 1am, there's no need to rush for light rail.
- Use designated crossing points and look both ways when crossing the light rail tracks.
- Take care getting on and off the light rail vehicle.
- Stand back from closing doors and wait for people to get off the light rail vehicle before you get on.
- When waiting on the platform, stand well back from the platform edge.
- Keep young children close and hold their hand at a stop and on board.
- Hold on when you're on board and be aware of sudden movements.

## Motorists

- Never queue across light rail tracks.
- Follow traffic signals and road markings.
- Always watch out for light rail vehicles, pedestrians, bike riders and other road users.

## Bike riders

- Cross light rail tracks in a straight line to avoid bike wheels getting stuck.
- If you can't ride straight across the tracks, it's safer to get off and walk your bike.
- Never ride along the tracks.
- Watch out for light rail vehicles, traffic, pedestrians and other bike riders.

## Pedestrians

- Be alert. Light rail moves quickly and quietly and can take a while to slow down.
- Watch out for light rail vehicles and don't be distracted by your phone.
- Never cross directly in front or behind a light rail vehicle as other drivers may not be able to see you.
- Look both ways before crossing and use footpaths and pedestrian crossings.
- When crossing light rail tracks in a wheelchair or with a pram, cross tracks in a straight line to prevent wheels getting stuck.

**Key**

- Light rail stop
- Bus interchange
- Ferry wharf
- Train station

# Paying for light rail travel

Light rail is part of the Opal public transport network, which means you can use an Opal card, or a contactless credit card, debit card or linked device to pay for your fare.

## Using an Opal card

Use your Opal card to tap on before you board and tap off at the end of your journey, at Opal readers located at each platform.

## Using contactless payments

You can also use an American Express, Mastercard or Visa credit or debit card, or linked device like a smartphone or smartwatch. You'll be charged an Adult fare and receive all the same travel benefits and discounts of an Adult Opal card. Always tap on and tap off at Opal readers using the same card or linked device to get the correct fare and travel benefits. Remember to separate your cards when you tap on and tap off to ensure your preferred card is charged.
